SANTA ANA, CALIFORNIA, TUESDAY EVENING, SEPTEMBER 12, 1911.

50 CENTS PER MONTH

MAINE "WET" AFTER 54 YEARS

This Seems Certain Though
Prohibitionists Do Not
Concede It

MAJORITY ESTIMATED
FROM 1200 TO 1500

Official Count Must Decide, Al-
though Result Seems
Certain

PORTLAND, Me., Sept. 12.—With only eight towns to hear from the returns of state elections today indicate went "wet" by 1500 majority, reality of 522. Eight towns not counted total only 200 inhabitants.

PORTLAND, Me., Sept. 12.—Although every indication is that the state went "wet" by 1500 majority, prohibitionists refuse to concede their defeat and insist that the official count will show a "dry" majority. A recount may be demanded by the prohibitionists.

Wets Nearing Danger Point
PORTLAND, Me., Sept. 12.—Official returns from 225 towns show the state majority for the wets only 163. Every city except Calais went wet.

Earlier Report
PORTLAND, Me., Sept. 12.—It is estimated here today that the "wets" have won their fight to remove the prohibitory amendment from the constitution of the state by the small margin of about 1200 votes. That the wets have carried the state is conceded by the prohibition forces, including the leaders of the Woman's Christian Temperance Union and the No License League, the organizations allied against the anti-prohibition forces.

Maine has been dry for fifty-four years. A majority of 1591 votes at the present time is based on returns from 490 out of 521 cities and towns. The forty-one towns to hear from are small and the vote is considered about even.

The result indicates a landslide for the wets, as every city with the exception of Calais gives a handsome majority for the anti-prohibitionists. Many cities that had been conceded to the dries by the anti-prohibitionist forces piled up large majorities for the wets, while all the larger towns of the state were in favor of removing the prohibitory amendment from the constitution.

BURGLAR IS OUT CLASSED

Nothing Doing for "Jimmy"
Artist With This Woman
Around

OAKLAND, Cal., Sept. 12.—Detectives, in possession of a white mask, today are searching for a burglar who stole a thousand dollars worth of jewelry from the residence of Dr. R. H. Carter, only to have it taken away from him by the physician's plucky wife, after a hand-to-hand struggle at the back door.

Mrs. Carter, who is diminutive, was seated by her husband in the parlor when the burglar cut his way through the screen of the kitchen door and ransacked the upstairs bedrooms. Having occasion to go to a storeroom which adjoins the kitchen, Mrs. Carter came upon the masked intruder. Grappling with him the plucky woman called loudly for help. Her husband hurried to her assistance, but before he got there the burglar escaped, minus the plunder.

—Lace Curtains a big discount. Large assortment of styles at \$1.00 and up. Horton-Spurgeon Furniture Company.

Night School Opens Sept. 18th, at the Orange County Business College.

**GOVERNOR JOHNSON
WILL SPEAK HERE
THURSDAY, SEPT. 21**

Arrangements were made to-day for Governor Johnson to speak in Santa Ana Thursday evening, September 21, instead of Friday the 22d, as originally planned. Further and fuller announcement will be made.

CHINESE UPRISING SERIOUS

CHENG KIANG, China, Sept. 12.—The uprising in the district of Chengtu is likely to lead to a rebellion that will require great force to quell. Soldiers in the district today refuse to obey government orders and are trying to get possession of the railroads. Foreigners so far are reported safe, many are arriving here daily to come within protection of four gunboats lying at this port.

Bulletins of News

From the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Wednesday; light west wind.

Brokerage Firm Fails for Three Millions

NEW YORK, Sept. 12.—The suspension of the brokerage firm of Van Schaick & Company is announced today on the Stock Exchange. Liabilities are given as over three million dollars.

William Jackson, recently murdered here in the Iroquois hotel by Paul Seidel, was formerly cashier of the failed firm. Elliot Norton, as assignee, said the liabilities of the failed firm would total between three and four millions, mostly secured.

Strike Benefits Up to Convention

DAVENPORT, Iowa, Sept. 12.—The executive committee of the International Machinists today decided to put the question of strike benefits up to the convention next week.

Daylight Dawning in Railroad Rate Cases

SAN FRANCISCO, Sept. 12.—The State Railroad Commission reached daylight in the San Joaquin Valley rate cases today when it set October 13 for final argument by San Francisco, Los Angeles and other intervenors. Arguments will probably last two or three days and after that the railroad commission will take the matter under advisement.

The decision, according to President Eshleman will probably not be ready until after the amendments to the state constitution have been voted on by the people.

TOOK WIDOW AND SIX CHILDREN TO KEEP SCHOOL GOING

WALLACE, Idaho, Sept. 12.—The official life of the Gordon district school, along with its bank balance of \$4,000 and its library, has been saved. After investigating scores of applications, the board chose a widow with six children as teacher. The school directors recently advertised for a teacher who was a married woman with four children. The children were necessary because the law provides that at least six children must attend a district school. There were only two until the teacher and her brood arrived.

THE "RAMONA" WRECKED OFF SPANISH ISLAND

SEATTLE, Wash., Sept. 12.—A wireless message today states that the "Ramona" from Skagway, Alaska, bound for Seattle, was wrecked off Spanish Island Sunday night. All the passengers were taken off safely, but the "Ramona" will be a total loss.

ARCHBISHOP DEAD

TORQUAY, England, Sept. 12.—Archbishop Alexander, primate of the Church of England, died here today.

Governors Declare For Uniform Divorce Laws

SPRINGLAKE, N. J., Sept. 12.—Striking a blow at the laxity of divorce laws in many states and favoring uniform statutes on the subject of separations and re-marriage, Governors from many states in opening the House of Governors here today promised to launch a movement to curb the so-called divorce evil. The Governors are practically unanimous in their opinion that existing divorce laws are inadequate and that the lax enforcement of them threatens the foundation of the American home.

Scope of Conference

SPRING LAKE, N. J., Sept. 12.—Prepared to tackle the subject of uniform divorce laws in the different states and other changes in legislation which have been advocated by various governors and the American Bar Association, the annual conference of the governors of the Union opened here today. From present prospects the conference bids fair to equal if not surpass those of the past, both as to attendance and business transacted. Governor Woodrow Wilson delivered the address of welcome, followed

FRANCE DEFIES RESIGNATION GERMANY FLATLY NOT YET BUT SOON

Stands Firm and Refuses to Allow Kaiser to Establish New Enterprises
Withdrawal of City Clerk Will Bring Out a Number of Candidates

PUBLIC SENTIMENT OPPOSES ACTION

Holland Prepares to Enforce Neutrality Laws in Case of War
Popular City Official Will Be Secretary of Life Insurance Company

PARIS, Sept. 12.—France's reply to Germany's counter proposals in the Moroccan negotiations has been written and will be laid before the French cabinet today for approval.

France stands firm against Germany in her demands for certain commercial and mining rights in Morocco and in the ultimatum made ready for delivery today recedes in no degree from the position assumed in the original proposal.

Premier Caillaux concluded consideration of the German pact last night and immediately notified the ministers of today's meeting. The cabinet will hear the reply read by the Premier, then it will be dispatched by special courier to the French ambassador at Berlin, who will deliver it at the German foreign office.

The cabinet is unanimous in support of the reply. Foreign Minister De Selves at the same time addressed a note to the nation, in which he made it clear that France's ultimatum would be a flat refusal.

Sentiment everywhere is heartily in accord with the course adopted by the cabinet.

Fear War Result

THE HAGUE, Sept. 12.—Alarmed over the increasing chances for trouble between France and Germany over the Moroccan question, the Dutch government today is rushing arms, ammunition and troops to the frontier garrison and making full preparations to enforce neutrality in case of war between her neighbors.

PARIS, Sept. 12.—Cabinet met late this afternoon to consider the French reply to Germany's counter proposals concerning Morocco. Premier Caillaux said he had drawn up the reply and the ministers were summoned to pass on it. It is understood the French note has been written in a spirit of conciliation, but expressing a firm attitude on the maintenance of the position which France has assumed on the principle questions. A semi-official note issued indicated that the German conditions would be refused.

SWEET PEA GIRL OF DURANT TRIAL WINS FORTUNE

SAN FRANCISCO, Sept. 12.—Rosalind Tiffany, the "sweet pea girl" of the Durant trial is today happy in the receipt of information that she has come into a fortune in the Alaska gold fields. Miss Tiffany "krustacked" C. E. Craig, a miner, on a prospecting trip which turned out extremely successful. Craig was not willing to divide the properties according to Miss Tiffany's wishes and she brought suit. Judge Overfield in Idaho has decided the case in favor of the "sweet pea girl."

—We have just received a second shipment of those excellent collapsible go-carts. The comfort, convenience and durability of our line of go-carts commend them to all who see them. Horton-Spurgeon Furniture Company.

BILLY SUNDAY CORPORATION TURNED DOWN

TOPEKA, Kas., Sept. 12.—The State Charter Board today refused to grant a charter to the "Billy" Sunday corporation, of Wichita. The applicants proposed to organize with a capital of \$10,000, to finance Sunday in a series of revival meetings. The incorporators were to profit by the contributions of Sunday's congregations or audiences. The Board held that this would not be a religious corporation.

—Long Coats the very latest things to wear at Gilberts.

FINAL ARRANGEMENTS FOR JOHNSON-HENEY SPEAKING CAMPAIGN

SAN FRANCISCO, Sept. 12.—Governor Hiram W. Johnson and Francis J. Heney, formerly graft prosecutor of San Francisco, will begin a tour of the state next Friday in behalf of direct legislation constitutional amendments, under the auspices of the Direct Legislation League of California. Heney will open the campaign for Amendments 22 and 23 at Napa. On September 16 he will speak at San Rafael, Sept. 18 at Sacramento, Sept. 19 at Red Bluff, Sept. 20 at Redding.

Arrangements are under way today for Heney to speak at Modesto, Merced, Bakersfield, Pomona, Tuare, Redlands, San Bernardino, San Diego and Los Angeles.

RECOMMEND SURVEY OF NEWPORT HARBOR; NOT FOR ITS IMPROVEMENT

Government Engineers Will do Preliminary Work So That Beach City Can Begin Making Harbor

That the United States Government will authorize a survey of Newport Harbor seems now assured, but with that assurance comes the disappointing news that the government is not likely to undertake the improvement of the harbor. At least, the recommendation of the board that made the harbor is that the government do not undertake the improvement. The recommendation is made, however, that the survey be made so that Newport Beach as a city may issue bonds and with that money and other money raised by subscription get a fund for the improvement of the harbor.

Orange County boosters for the harbor have not given up hope of government aid, believing that when the local interests have shown their good faith in the proposition by expending money upon the harbor's improvement the government will come to the aid of the harbor.

Information concerning the government's present attitude in the matter comes to Lew H. Wallace as secretary of the Associated Chambers of Commerce of Orange County from Capt. Charles T. Leeds of the United States Engineers of Los Angeles. Capt. Leeds has sent Wallace a "copy of endorsement on my report of preliminary examination of Newport Bay." This copy says:

"Washington, Aug. 21, 1911. Chief of Engineers, U. S. Army.

"1. This harbor lies about 24 miles southeast of the port of Los Angeles and 80 miles north of San Diego, both of which are deep-water ports. The depth over the bar at the entrance to Newport Harbor is about 4½ feet. It is impracticable therefore for any but light draft vessels to enter or depart.

"2. There was at one time a water-borne commerce of considerable size,

but for reasons explained by the District Officer it began to decline about 1899 and practically ceased in 1906, since which time there has been none. The adjacent country is very fertile and produces large quantities of fruits, vegetables, wines, poultry and considerable tonnage in sugar and oil. This territory, however, has good rail connections with Los Angeles and San Diego, and there is reasonable doubt as to the amount of commerce that would be drawn from these larger ports with better water and rail facilities, if the harbor at Newport were improved.

"4. Under the circumstances, the District Officer expresses the belief that the development of a deep-water port at this locality is inadvisable. It appears that the question of improving this harbor at local expense has been taken up by the citizens of the community, and that they have determined to undertake the work themselves. In view of this fact, and that the Department will be called upon to consider and pass upon the plans of improvement, the District Officer recommends that a survey be authorized, in which the Division Engineer concurs.

"5. Quite a number of communications accompanying the District Officer's report have been reviewed and considered by the Board, and on August 8th Mr. Lew H. Wallace, of Newport, appeared before the Board and stated in behalf of the community which he represented that the development of the port would be undertaken by the City of Newport Beach through an issue of bonds and individual subscriptions, and that all that was asked at the present time of the General Government was the making of a survey for the establishment of

Continued on Page Four

Fowler Meets Disaster In The Mountains High

AUBURN, Cal., Sept. 12.—Aviator Robert G. Fowler, left here on his eastward flight at 9:34 this morning. The aviator said his first stop would be at Reno, a distance of 125 miles from here.

Passed Colfax
COLFAX, Sept. 12.—Fowler passed here at 9:42 a. m., 1000 feet high.

Comes Down at Alta
ALTA, Cal., Sept. 12.—Fowler's machine fell just west of Alta but the aviator escaped injury.

Failure of rudder caused Fowler's fall. His machine is a total wreck, but his engine is not injured. Fowler escaped with minor bruises.

All went well until Fowler reached Alta, where he passed at 9:55 a. m. Then, 1000 feet high, making 55 miles an hour, as he neared Alta he began to have trouble. Feeling his rudder going wrong, he started to volplane toward the earth. Just as he neared the ground the rudder went out of commission and his machine crashed down on a hillside a short distance from the Southern Pacific station piling itself up a mass of splintered wood, twisted iron and rent canvas.

Fowler leaped from the saddle of the flyer just as it hit the earth, and except for minor bruises he is uninjured. The aviator refused to state when he would make an effort to resume his flight, but declared himself undaunted by the accident and said despite the setback suffered he still would be the first man to cross the continent through the air.

Aviator's Statement
After the accident Fowler said: "My vertical rudder quit for some reason, and all I could do was to go around in circles. I swung to the left in spiral glides, and then dropped. The machine hit a couple of trees, damaging the planes badly, although the engine is all right. My back is wrenched but there is not a bit of skin off anywhere. It will take three or four days to rebuild the machine."

Yesterday's Progress
SAN FRANCISCO, Sept. 12.—As noted in yesterday's dispatches, when a point near the railroad, north of the Fowler passed over Oakland he was going a mile a minute and soon dis-

appeared behind the hills back of Berkeley. He passed over Dixon, 67½ miles, at 2:58; Davis, 75½ miles, at 3:06; and Sacramento, 88.8 miles, at 3:22 p. m.

Greeted Governor Johnson
At 3:23 he landed at the state fair grounds in Sacramento. He made an easy descent. He jumped into an automobile and raced to Governor Hiram Johnson's office.

"Have you any message for the governor of New York?" asked Fowler.

"Just yourself," said the governor with a laugh.

Fowler then took dinner intending to fly to Colfax, 114 miles from San Francisco. Just before he started on his flight, Fowler said:

"I'm satisfied that I can win, now that all my plans hold good. My landing stations and wind charts and altitude tables are behind me again, and I don't need to worry about a strange route.

"If I had gone from Los Angeles I would not feel so confident. My attention would be taken off my work with scouting for landing places and chances of not getting fuel and oil. I'd have the southern desert under me for the first leg of the trip, and I might find air conditions new to me.

"We're all pretty new at the business. But I'm no self made flyer. I hammered away under the Wrights and did more flying in two weeks than most exhibition aviators in a year."

Passes Night in Auburn
Fowler remained at Sacramento one hour resting and replenishing his supply of gasoline. He was in perfect condition and on stepping from his machine at the park plaza remarked: "Well, boys, I am here."

At 4:30 p. m. he resumed his flight and at 6:45 arrived in Auburn, 126 miles east of San Francisco, on the Southern Pacific and Overland route, where he decided to pass the night instead of proceeding to Colton, where he originally planned to stop. On entering Auburn he left the railroad and gracefully circled the courthouse, making a beautiful landing at a point near the railroad, north of the town. Bells were rung and whistles tooted as he passed over the town.

Mount Aetna Volcano Threatens Devastation

CATANIA, Sicily, Sept. 12.—Mount Aetna, the volcano which caused the devastation of Messina and Reggio, causing the loss of hundreds of lives, is today again active. Refugees from all farms and villages on its slopes are flocking here for safety. Great eruptions from the main crater and three lesser craters, and from fourteen fissures are constantly increasing in violence.

CONCLUSIVE EVIDENCE GIVEN

Labor Leaders Have Copy of a Letter Showing Discrimination

WRITTEN BY HEAD OF NORTHWESTERN SYSTEM

Agreeable to Increase in Wage for Non Union Men Only

PORTLAND, Ore., Sept. 12.—Backed by a letter which they claim was written by J. P. O'Brien, head of the Harriman system in the northwest, to General Manager Kruttschnitt, leaders of organized labor today came out flat-footed with charges that the Harriman system does discriminate against its union employees and has been discriminating against them for months. The letter, which is dated April 8, 1911, is written in code. As translated it read as follows:

"Messrs. Mohler & Bancroft: Agreeable for advances for operators and agents who are not union men, who do not belong to labor organizations, have arranged same O. W. B. as of March 1. Will advise you in regard to Excess Lines in Oregon."

Copies of this letter were sent to W. H. Bancroft at Salt Lake and to A. L. Mohler at Omaha. The letter directly contradicts recent statements of various high officials of the Harriman system, who declared the system had not discriminated against employees when it adopted its retrenchment policy recently and let out hundreds of shopmen and clerks to reduce expenses.

FIGHT AGAINST HOME RULE TO START SEPT. 23

BELFAST, Sept. 12.—A spectacular campaign against home rule will be inaugurated in Ulster September 23. A monster procession in which it is predicted 200,000 unionists will participate, representing ten districts will march four abreast to Craigavon, County Down, the residence of Captain James Craig, M. P., each section headed by a brass band. There a mass meeting will be held addressed by a number of leading anti-home rule members of parliament.

It is planned to adopt resolutions pledging the Orangemen to fight against home rule even to the extent of armed resistance. Similar demonstrations are being planned to be held throughout Ulster before the re-assembling of parliament in October.

20,000 CLERGYMEN START WAR ON TAFT

CHICAGO, Sept. 12.—A nation-wide campaign against President Taft and Secretaries Knox and Wilson was entered into yesterday by the 20,000 ministers of the Methodist Episcopal denomination and the Christian Endeavor Union, representing the various denominations and individual societies.

The purpose is to secure a reversal of the action of Secretary of Agriculture Wilson in accepting the honorary presidency of the Brewers' Congress, which is to meet next month in Chicago, or, failing in this, at least to register a rebuke to President Taft if it be found that Mr. Wilson acted with his knowledge and consent.

Resolutions voicing this protest were simultaneously introduced today in meetings in every city of any considerable size throughout the country, and arrangements were made whereby this concerted action will be sent to President Taft, Secretary of State Knox and Secretary of Agriculture Wilson.

NICARAGUAN CITY IS DEVASTATED BY FIERCE HURRICANE

CORINTO, Nicaragua, Sept. 12.—Ten persons perished and fifty were seriously injured in a hurricane which laid eight city blocks in ruins. The storm came up late yesterday leaving death and ruin in its wake. At least \$2,000,000 damage is reported.

BRINGS SUIT

Because of Runaway He Asks
\$720 in Addition to \$2000
for His Wife

Distribution of Estate of Santa
Ana Pioneer Is Peti-
tioned For

James A. Lake, a florist of Hunt-
ington Beach, has added a companion
suit for damages to the suit brought
two weeks ago by his wife. Both ac-
tions are aimed at W. A. Patterson,
a contractor, alleged by the plaintiff
to be responsible for a runaway on
the night of June 19, in which run-
away Lake and his wife received in-
juries.

In the action brought by Mrs.
Lake two weeks ago, \$2000 damage
is asked. In the action brought today,
by the husband a judgment of \$720
is demanded. Watkins & Blodgett ap-
pear as attorneys for the plaintiffs.

The incidents upon which the suits
are based are the same in both suits.
It is alleged that Patterson left a
number of gravel wagons upon the
side of Main street, near Palm street,
Huntington Beach, on the night of
June 19. No lights were placed to
warn the public of danger, which neg-
lect was in violation of the Hunting-
ton Beach city ordinance.

About 8:30 o'clock Lake and his
wife were driving homeward in a
one-seated buggy. It was dark and

foggy. Coming suddenly upon the
wagons, their horse took fright, ran
away and turned the buggy over.

In her suit Mrs. Lake asks \$2000
damages because her nose was bro-
ken and she was painfully injured
otherwise.

In his complaint, Lake specifies in-
juries as follows: Loss of the serv-
ices of his wife by reason of her in-
juries, for one month, \$50; lameness
and soreness to Lake himself by reas-
on of being thrown from the rig,
\$500; damages to buggy \$25, to har-
ness \$10, to clothing \$50 and to horse
\$85; total, \$720.

Ask Distribution
Miss Orabel Chilton of Los Ange-
les and Dr. Jesse Chilton of Fullerton
have filed a final account and petition
for distribution in the estate of their
father, Robert Francis Chilton, a pio-
neer of Santa Ana. The estate to be
distributed is valued at about \$40,000.
The sum of \$1000 and the personal
property go to Miss Chilton. The re-
mainder is to be distributed among
the four heirs, Miss Chilton, Dr. Chil-
ton, Charles H., of Los Angeles and
Franklin L., of Downside, Mich., a
part of the estate to be held in trust
by the petitioners.

Will Is Filed
The last will of Robert Burton Lu-
ther, Sr., was filed for probate yester-
day by Attorneys Scarborough & For-
my for R. B. Luther, Jr. The estate is
valued at \$12,000, of which \$10,000
represents a ranch three miles south
of Anaheim. Under the will the es-
tate is to be held in trust by the pe-
titioner, the profits to go to the wid-
ow. On the death of the widow the
estate is to be divided among chil-
dren of the deceased.

Petition Received

A final account and a petition for
distribution have been filed in the
estate of Nancy E. Pankey. Accord-
ing to the petition \$189.65 is to be di-
vided among five heirs. H. C. Head
is attorney for the estate.

SEARCH MADE
BY OFFICERS

Negro Seen at Sycamore Flats
Could Not Be Found Yes-
terday Afternoon

Deputy Sheriff Jernigan and Con-
stable Squires of Santa Ana and City
Marshal Kellenberger of Anaheim
made a run to Sycamore Flats in the
Santa Ana canyon yesterday after-
noon in search of a negro who had
been camped there. The officers
thought it possible that the negro
was the man sought by the Los An-
geles officers for the murder of a
woman at Compton. After making a
thorough search the officers returned
without getting sight of the negro.

Last Saturday an Anaheim man
passing through the canyon on the
way to Elsinore saw a negro at Sycam-
ore Flats. Yesterday this same man
returned from Elsinore, and a point
less than a mile from where
the negro was seen on Saturday he
was again seen stretched out on the
ground beneath a sycamore tree.

The Anaheim man saw the negro
yesterday about 11 o'clock, and on his
arrival at City Marshal Kellenberger,
who communicated with the officers
here, and the expedition was started.
While the description given by the
Anaheim man of the negro at Sycam-
ore Flats did not closely fit the de-
scription of the negro wanted for the
Compton murder, the officers decided
to capture the negro in the canyon
if possible and look him over for the
distinguishing skin disease scar on
the right side of his face.

Arrived at Sycamore Flats, the of-
ficers made an unsuccessful search.
They found three places where camp-
fires had been built recently, but
whether they were built by the negro
or some other parties could not be
determined.

The local officers are keeping a
close lookout for the Compton mur-
derer, and any information is prompt-
ly run down. Last Friday night a
search of a section of the city was
made. Yesterday word came that a
negro had been acting queerly at El
Toro. The negro asked rates to Los
Angeles, but took the south-bound
train. The officers here think it prob-
able that this negro was the same
one who was dismissed from the
county jail here yesterday morning.

tion.

OSLER RIGHT; YOUTH
SUCCEEDS AGE

Gray Hair Is First Sign of Age.
Harmless Remedy Restores
to Natural Color.

Osler isn't the only man who turns
down old age. In the business world the
"young man" is always the one who
picks the plums. It is an age of "new
thought," "new talent," etc., and the
old man is passed by in the race.

One of the first signs of coming age is
the appearance of gray hairs. When you
see them, act promptly. Wyeth's Sage
and Sulphur Hair Remedy will correct
this sign, which so often deceives people
into thinking that age is really upon
them. It is a well-known fact that Sage
and Sulphur will darken the hair. Wy-
eth's Sage and Sulphur combine these
old-time remedies with other agents,
which remove dandruff and promote the
growth of the hair.

The manufacturers of this remedy
authorize the druggists to sell it under
guarantee that the money will be re-
funded if it fails to do exactly as re-
presented.

This preparation is offered to the
public at fifty cents a bottle, and is
recommended and sold by all druggists.

ing gowns, and the latest of the handsome
new Fall dress goods. We show four ex-
clusive, new shades, Java, Reseda, Edison
Blue, and the new Tan, in dainty self fig-
ures. 42 inches wide, price \$2.00 yard.

Silk and Wool Poplins, 42-in.
\$1.50 yard

We have put in a big line of this handsome
material in the best of the fall shades, Blues,
Grays, Champagne, Apple Green, Chocolate
Brown, and a new Pink called the American
Beauty Rose shade. This is a stylish ma-
terial for evening dresses. 42 inches wide,
and priced at \$1.50 yard.

3 Good Numbers in Fall Coatings

Satin Prunellas, 50-in. \$2.00 yard

This is one of our fine materials for evening
coats, second only in popularity to fine
broadcloths. Satin Prunella in a medium
weight cloth woven in a fine, soft twill. It
makes up beautifully and drapes gracefully.
We show it in exclusive shades, such as
Pearl Gray, Champagne, Light Tan, Pink, and
Blue. Width 50 inches, price \$2.00 yard.

Chevron Stripes, 56-in. \$2.00 yard

The chevron stripe is the new, manish
material that is being shown for fall coats
and suits. It comes in a heavy weight which
affords good shape retaining quality. The
toniest stripes are in broad, two-tone effects,
such as two shades of gray, and brown and
tan, woven on the serge order. The cloth
comes 56 inches wide and is priced at \$2.00
yard.

Scotch Nubbed Suitings, \$1.25
and \$1.50 yard

Some of the new styles for the coming sea-
son are rough materials in the Scotch ef-
fects. We are showing Scotch Tweeds and
Scotch Nubbed suitings, and Chevron
stripes in nubbed effects. They come in
browns and grays only and are certainly
handsome, manish cloths. The \$1.25 quality
is 50 inches wide and the \$1.50 quality comes
56 inches.

Rankin Dry Goods Co.

IN THE JUSTICE'S COURT

HIS INSANITY IS
WALKING TYPHOID

Luciano Menoz, a Los Alamitos Mex-
ican, was brought to the county jail
this noon by companions who believed
that he was insane. They said he had
not been well for nearly a week, and
this morning he attempted to run
away.

The county physician examined the
man in the county jail, and concluded
that the man was suffering from walk-
ing typhoid. The Mexican was re-
moved to the hospital, and a complaint
charging him with insanity was not
drawn up.

Is Locked Up
Deputy Sheriff Jernigan arrested
Roman Reyes, a Talbert sugar beet
contractor, today. Mrs. E. Perez, who
lives near Talbert, charges that Reyes
beat her out of a board bill. She says
that Reyes failed to pay his laborers.

MOTORCYCLIST GOT
THREE PORPOISES
AT NEWPORT BEACH

Riverside Press: The Riverside
Motorcycle Club enjoyed another of
its pleasant outings yesterday. A
party of 10 left home in the morning
at 5:45. They had good luck in their
run through the Santa Ana canyon,
though several of the novices found
their initiation in the art of motor-
cycling rather trying at times. The
excursionists reached Olive at 8 o'-
clock and pulled into Newport about
9:30.

Frank Stuckberry ran down to the
Beach Saturday to make arrange-
ments for the cyclists. He had hired
a boat for a fishing trip, and the club
members invited friends to join them
in the cruise. Altogether there was
a jolly crowd of 15 aboard. They ven-
tured out five miles from terra firma
and nearly collided with an inquisi-
tive school of porpoises. One of the
party had brought a rifle, so they var-
ied their fishing with a little sea tar-
get practice. Three of the porpoises
fell victims to the sea-going nimrods,
and two were brought to shore as tro-
phies.

The main party enjoyed an easy
return trip by way of Brea canyon.
Two of the cyclists, however, acting
as an advance guard, suffered a mis-
adventure. They were misled at Po-
mona, and wandered from the straight
and narrow path to Riverside, finally
landing at Corona. The two unfor-
tunate ran out of gasoline just the
other side of the latter city and were
forced to lead their machines to the
nearest garage. The others reached
Riverside at 7:30 p.m., having left
Newport about 4 o'clock.

Company.

Why Santa Ana business men should
do their business with the

California
National Bank
of Santa Ana

BECAUSE its shareholders have
large holdings in the city and sur-
rounding country and their inter-
ests are mutual.

BECAUSE the strength of this bank
lies not alone in its capital and sur-
plus, but in the character and finan-
cial responsibility of the men who
conduct its affairs.

BECAUSE its business is governed
with that conservatism, combined
with enterprise and up to date
methods, which make for soundness
and satisfactory banking service.

Newport Beach City Trustees
Give City Attorney In-
structions

Newport News: The regular meeting of the city trustees was held Monday night but on account of that day being a legal holiday part of the business was carried over to the next evening. The most important business transacted was the establishment of the tax levy for the ensuing year. The levy was left the same as last year, 70 cents.

This makes a total of \$12,350 to be raised by taxes in the ensuing year, but the clerk is taking it for granted that the trustees will have to be paid a salary after the next election. The total tax roll, according to the assessor's books, just turned over, amounts to \$1,817,024.40. A 70 cent

rate on this amount will make \$12,719.17 or slightly over the amount estimated.

The condition of the Santa Ana river, having become well nigh unbearable, the city attorney was instructed to bring a criminal action against the Southern California Sugar Co. if the nuisance was not abated at once.

Trustee Barton called attention to the fact that the streets were at present without lights with the exception of East Newport where they are paid for by the East Newport Town Co. Mr. Barton said that there should be all means be lights at the principal stopping places of the Pacific Electric Railway, and a motion carried that a committee be appointed to ascertain just what these lights could be produced for from the gas company. President Smith was not much in favor of the plan but appointed Mr. Barton and Mr. Collins on the committee.

The city attorney having been instructed at a previous meeting to ascertain what ordinances had been passed at other beach towns regulating the kind and length of bathing suits reported that the ordinances had all failed of passage; that of Santa Monica so much talked of being vetoed by the mayor.

Sailo a Troubles

Captain Neville Witherspoon has been attempting to navigate the bay all week with the good sloop Claret but has met with some difficulties. Wednesday the sailboat ran aground on W. W. Brown's wharf off East Newport and on Friday while attempting to tack in the face of a heavy breeze the craft turned about the wrong way, i. e. upside down. Witherspoon swears by the pipers that played before Moses that he will make a first class seaman yet.

A grand prize masquerade ball is announced for the dancing pavilion in the bath house Saturday evening Sept. 16. Prizes will be awarded for the best original character, the best hayseed couple, the best Dutch character and the most comically dressed lady or gentleman.

CARELESS ABOUT APPEN- DITIS IN SANTA ANA

Many Santa Ana people have stomach or bowel trouble which is likely to run into appendicitis. If you have constipation, sour stomach or gas on the stomach, try simple backthorn berry glycerine, etc., as compounded in Adler-ika, the new German appendicitis remedy. The Rowley Drug Co. states that a SINGLE DOSE of this simple remedy will relieve bowel or stomach trouble almost INSTANTLY.

GENERAL ROAR IS GOING UP

English Shippers Do Not Like
the "Sleeper" Discovered
in Agreement

LONDON, Sept. 12.—In the agreement which the government effected between the railroads and their employees and which brought to an end the general strike in August there is a "sleeper" which lifts from the shoulders of the companies the burden of increased cost of labor and places it on the public.

Now that it is too late, the significance of the "sleeper" is understood, and a roar of protest is going up today from shippers all over the country.

The government conceded the railroad the right to increase rates which are regulated by an act of parliament. This privilege has never before been enjoyed by the railroads. Heretofore the board of trade has never allowed the roads to increase their rates because they were obliged to pay higher wages.

The promise of the government will result in a new bill being introduced in parliament allowing the railroads to escape the consequences of the strike which they forced their men into, and the public will be the "goat."

The railroad rates are so high that it is cheaper to ship cabbages across the North Sea by boat to London than to bring them into the city by rail fifty miles out of town. If the railroads shift the entire increased cost of labor onto shippers it will cost them an added \$40,000,000 a year. There are 622,000 railroad men in the United Kingdom, and they are guaranteed a minimum wage of about \$7.50 a week. The average weekly wage last year was \$6.09.

NEWBRO'S HERPICIDE

Solves the Problem of Good Hair

After Prof. Sabouraud confirmed the germ origin of dandruff, science was confronted by a new problem which was not solved until the discovery of Newbro's Herpicide. Herpicide, being the most successful preparation compounded in harmony with the new theory, is the original remedy to kill the dandruff germ.

Since then, numerous preparations said to be "just as good" as Herpicide have been thrown upon the market; others have adopted Herpicide claims, and without making any claims in their remedies, but none has ever reached the same degree of popularity. Everywhere this remedy is recognized as the one genuine landruff germ destroyer. As a result Herpicide has more satisfied users than all other hair preparations combined.

Being the original remedy, users expect more astute fishing results from Herpicide than they would look for from any other preparation and they usually get them. So wonderful has been the success of this germicide that it is now recognized as the standard hair remedy of the world. Herpicide kills the dandruff germ, checks falling hair, it stops itching of the scalp almost instantly.

For sale at drug stores. One dollar size bottles are guaranteed. Applications obtainable at the good barber shops. Insist on having real Herpicide. Send 10c in postage for sample and book to the Herpicide Co., Dept. R, Detroit, Mich.

Rowley Drug Co., Santa Ana, Tustin Drug Store, Tustin.

THE CLOWNS ARE A BIG FEATURE

Ringling Brothers' Jesters of World-
Wide Reputation

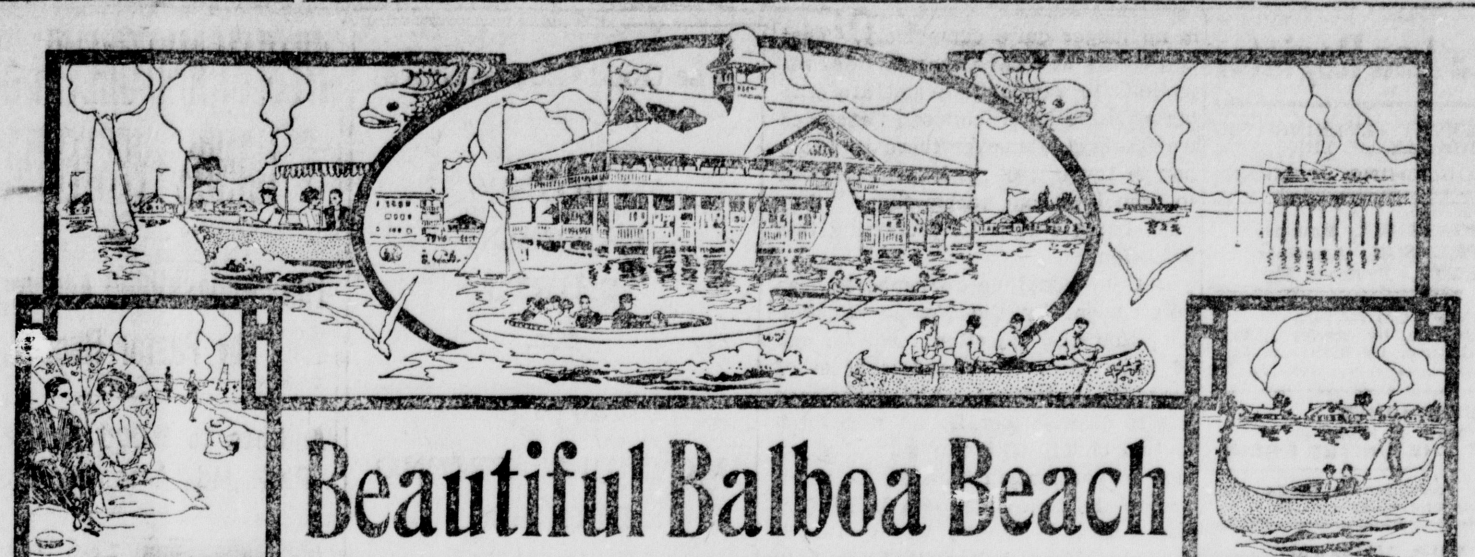

Fifty of the world's best and merriest clowns are largely responsible for the attractiveness of the program which Ringling Brothers' World's Greatest Shows are offering this year. There is not a moment during the three hours the doors are open that the audience is not laughing at some troll stunt or funny antic of the great army of comedians.

Most of these gay sky-larkers are from Europe. They are from the comic opera companies of Paris and Berlin, the Pantomimes of famous Drury Lane, from the courts of eastern potentates and from our own vaudeville and musical comedy stages. This is the circus that for a quarter of a century has originated the best here is in clowning. It is funnier than ever this year. The man who attends one of its performances and does not come away with a more hopeful focus on life had better see an undertaker.

At all times the arena is the scene of merry action. There are satires on public and political happenings, farces, the richest of vaudeville sketches, dialect acts and clever tom-foolery. The coarseness that characterizes the clowns of other shows is missing. The compound essence of wholesome and innocent fun is ever on tap. The audience drinks large draughts of it with beneficial results to health and mind.

Foremost among the comedians is Al Miao. He was the original Humpty-Dumpty. Though nearly sixty years old is still the leader of all the world's pantomimists and harlequins. His name is that of an illustrious family of comedians. There is also Jules Tournor, the best of all French mimics. Jules is the subject of an intensely interesting biographical story written by Isaac F. Marcossan, the magazine editor and author. He has clowning in every civilized country on earth. Kings and queens, diplomats and professors have laughed at him. He is the delight of the children. George Hartzell is another of the clowns. The magazines all over the country have devoted pages to his clever work. Still another is James Spriggs, the clown policeman. He is what is known as a "free lance," working independently of the others. Laughter follows in his train wherever he goes.

Other celebrated fun-makers with this show are John Slater, the Happy Hooligan of the sawdust; Charley Smith, the king of cut-ups; Tom Roberts, best of all Dutch clowns; the

Beautiful Balboa Beach

There is no more charming spot on the Pacific Coast than Balboa Beach. For a summer home or a place for temporary sojourn or a day's recreation it is unsurpassed. Indeed it is in a class by itself. With a grand stretch of beach on one side for surf-bathing and surf-fishing, and on the other the beautiful Newport Bay for still water fishing, bathing, boating, it is incomparable. On the Ocean side the pleasure pier is now being extended 200 feet further out into the deep blue sea, and on the Bay side is Balboa Pavilion and bath-house with every facility for pleasurable recreation—dancing, boating, fishing, bathing, canoeing. There are the Venetian Gondola, the steam launches and row-boats and canoes. Directly in front of the Pavilion is Balboa Island on which some of the finest summer homes in Southern California are being built, and to the right across the Bay is Coronado del Mar crowned with fine hotel and beautiful cottages, bungalows and more pretentious residences. This resort is free from all objectionable features; is clean and wholesome both morally and physically; and is supplied with all the requirements of visitors, sojourners and residents, as the following list of leading caterers and tradesmen in their respective lines will testify:

Deltorellis, famous Hungarian grotesque; the funny Milvos, Max Heller, Leslie Wyson, and Al White, the best character artist in America.

White's clever stunts come as a surprise to the audience. It is not known that he is a clown until the performance is half over, though he has kept the crowds laughing from the start. The women are the first to spot him. He works among the audience. A clever little boy assists him. When the big show comes to Santa

Ana on Friday, Sept. 22, it will set the town to laughing as it never laughed before.

NEWPORT BEACH GAMBLING CASES ON TRIAL TODAY

District Attorney West went to Newport Beach this morning to try the first of the cases arising out of

the raid made by officers upon a gambling joint at Newport Beach. John Landis is charged with conducting a place where gambling is allowed. The trials are by jury, and there is little probability that a jury can be secured from the freeholders of Newport Beach. The defense may be willing to stipulate that the venue may include residents of some other precinct, as was stipulated recently in a criminal trial at the beach town.

WISE AND HUMANE

That is a highly intelligent and humane thing that Pasadena is doing—sending habitual drunkards to a cure for inebriation instead of jail.

Most habitual drunkards are just as anxious to quit drinking as their families and friends are to have them quit. But they simply cannot quit without restraint and scientific treatment. Sending them to jail for a few hours or a few days does no good whatever, but it does much harm—it adds to the shame and degradation and hopelessness of the victim of the terrible disease.

Pasadena stands deservedly high in public esteem for its advanced ideas and ideals, but nothing it has ever done is more entitled to a niche in the hall of fame than this simple thing of reaching out a helping hand to drunkards instead of adding to their misery and to the sum total of human unhappiness by giving them "ten days."

And the helping hand is a real and lasting help. Police Judge McDonald, at his own expense and with the help of some good and wise people, tried out the experiment of giving inebriated treatment instead of punishment, and proved its efficacy. Then the city council agreed to provide \$25 for each case recommended by Judge McDonald for treatment.

That this policy will pay in dollars and cents as well as in a moral sense no intelligent person can doubt.

WORK OF POSTAL SAVINGS BANKS

Thus far the only unfavorable criticisms of the operations of the postal savings system that have been reported to Postmaster General Hitchcock are the complaints of saloon keepers in certain mining towns of the west whose business it seems has been unfavorably affected by the putting of their surplus earnings in the postal savings banks. It appears that formerly such savings, if deposited at all, were put in the local commercial banks, but this did not greatly deter their being expended by the miners after having paid out the ready cash in their pockets, could make further payments to the saloon keepers by checks.

Postal savings accounts cannot be drawn against by check, and, furthermore, no money can be withdrawn from such accounts except in the usual day time postoffice hours. It thus happens that the evening business of the saloons has been considerably diminished by this new branch of the postal service, which, according to Postmaster General Hitchcock, is proving to be an important influence on the morals of the communities in which established.

CENTRAL SPEAKS

The following verses have been sent to the Register with the notation: "I copied this from the October number of McCall's Magazine." There is nothing to indicate who "I" is—whether a long-suffering telephone girl or an observant and considerate subscriber—to the Register and the telephone.

At all events somebody wants the Register to publish the verses and it is a pleasure to do so.

CENTRAL SPEAKS
Call me not with scornful numbers,
Like "two-seven-O-ring-three!"
Snapped out in disdainful accents—
Pray be courteous to me!

Would you like to sit here with a Telephone strapped on your head,
All day long to answer summons?
Wouldn't you wish that you were dead?

When I say the line is busy,
Honestly, sometimes it is,
Why do you get so indignant,
When you hear the buzzer's whiz?
And wrong number—naturally
Sometimes I am at a loss;
But, in fact, I give them mostly
To subscribers who are cross.

Be polite. It will not hurt you,
Even though I'm in a box,
I am human—although hidden—
And am sensitive to knocks.
Be polite. Do unto others
As you'd have them do to you,
It's a good rule to observe—and—
You'll get better service, too.
—Somerville Journal.

VACCINATION

As the season for the opening of the public schools approaches, conscientious consideration should be given the subject of vaccination.

Under a new state law, vaccination

is no longer quite compulsory. That is, parents who have conscientious objections to vaccination, and are willing to have their children excluded from school whenever there is smallpox in town, may send their children to school without vaccination, if they will sign a statement professing this objection.

But it should be remembered, as pointed out by the Fresno Republican, that the objection must be one of conscience, not of judgment or of personal preference. And conscience has to do with morals, not with intellectual belief. The only sort of objection to vaccination that can be referred to the conscience is a belief that vaccination is morally wrong—that it is a sin. If you believe that people in general should be vaccinated, but merely dread it for your particular child, that objection is not one of conscience. If it is your medical opinion that the medical profession is mistaken in its conclusion that vaccination is a prophylactic against smallpox, this difference of medical judgment is a matter of evidence and intellect, not of conscience. Therefore, the only persons who should regard themselves as exempt are those (if there are any) who regard vaccination as an immoral act.

ONE IDLER'S SAY

The Idler has always had a great admiration for the pioneer, for the man who stakes the plains or blazes the way, who undergoes the disappointments of experiments with the end that something new and worth while may be developed.

The Idler met a pioneer at Arch Beach a few days ago. His name is H. E. Woods, and when he is not at Arch Beach Mr. Woods calls South Pasadena his home. He prefers Arch Beach to South Pasadena, and for that reason a large share of the year South Pasadena is not his home.

Mr. Woods is a pioneer in that on his own hook he is doing experimental work looking to the beautifying of the tops of the bluffs along that most picturesque line of shores, stretching from Newport Bay to San Juan-by-the-Sea.

Mr. Woods owns and lives upon the huge rocks that form the arch from which Arch Beach was named some tens of years ago. His system of pioneering consists of planting out and caring for a large variety of bushes and trees that he thinks ought to grow up and be good to look upon, that ought to do well at Arch Beach.

It is not an easy job. It is a job that is barnacled with all the disappointments that are liable to come to one seeking to make new things grow in new places.

Already Mr. Woods has spent no small sum of money in his work. He has sent to Australia, South Africa, Hawaii and many places nearer home for plants. He has watched many a rare bush send out its leaves only to see them wither beneath the scorch of salty air, sun and breeze.

He has planted many kinds of eucalyptus, and dozens of bushes and trees with whose botanical names Mr. Woods has an intimate acquaintance. Success is smiling upon this pioneer. While he has found many plants that will not grow upon the bluff, three sides of which touch rocky shore made by the everlasting beating of restless water, he has found plants that will grow splendidly. Some of these will not grow near the edge of the bluff, yet will do well a few yards back toward the hill. Mr. Woods has found that every 100 feet from the line of the water's edge makes a vast difference in the kind of plant that will grow.

He has found that the Australian salt bush makes a good hedge that will grow on the bluff. He has been successful with so many plants that have also been found to do well at Santa Barbara and Coronado.

Mr. Woods found that he had underground agencies to fight as well as atmospheric conditions, and chief among these was the gopher, who thrives upon the bluffs of Arch Beach. But Mr. Woods has checked-mated the gopher; and in a very simple manner at that. He makes baskets of ordinary galvanized chicken-wire, sets it in the ground and plants his tree in the baskets, and the gopher does not come through, neither does he bite of the root.

In spite of salty air, sun, breeze and gophers, Mr. Woods has accomplished much. In a few years he will have a place that will in itself bespeak praise and commendation for the months of toil expended upon it.

And as always with the pioneer, those who come after and those who own land thereabouts may profit all they are a mind to profit by the experiments that have been made and are being made by Mr. Woods. He has only begun. He has heard of plants of great beauty that will hang over the edge of a cliff and trail its flowers in the very crest of the waves. He is going to get some of those

plants some day, cost what they will. And Mr. Woods has no particular cause to regard the expense. That the Idler learned as he and his companion, Mr. Gordon Surr of San Bernardino, were leaving. Mr. Surr, a mining engineer was recognized by the gardener of Arch Beach as a man who has written much for technical mining magazines, and that recognition opened up the way for the statement that the man who is now watering flowers on the Arch Beach bluff discovered, developed and owned the famous Gold Coin mine of Cripple Creek, Colo. He still has considerable of that gold coin.

HER HAIR GREW

That's Why a Thankful Woman Recommends Parisian Sage

The Rowley Drug Co. will sell you a fifty cent bottle of PARISIAN SAGE and guarantee it to banish dandruff, stop falling hair and itching scalp, or money back. It's a delightful hair dressing that makes hair lustrous and fascinating.

"In the spring I was recovering from a severe case of erysipelas, which left me virtually bald on the front of my head and next to my ears. The hair kept coming out rapidly and nothing I used stopped my getting entirely bald, until I used two bottles of PARISIAN SAGE. This tonic made my hair start to grow in and in, grew me a good, fair amount of hair, and it has entirely stopped my hair falling out."

It is with pleasure that I can public recommend to PARISIAN SAGE, which I know is a wonder."—Mrs. Ella Gilchrist, W. Pitt St., Bedford, Pa.

NOTICE INVITING BIDS

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the matter of the estate of Jennie A. Reeve, deceased.

Under the authority of the Court granted by the Superior Court of the County of Los Angeles, dated July 5th, 1911, we will sell at private sale, the following described property:

A 5-12ths undivided interest in the Rancho Las Bajas, County of Orange, State of California, and described as the east 24.54 acres of the north 40 acres of the south 60 acres of the south-east quarter of section 11, township 6 south, range 11 west, S. B. & M. being all of said 40 acres lying east of California avenue, as shown on map of Vista del Mar tract, section 2, recorded in Book 1, page 5 of Miscellaneous Maps, Records of Orange County, California, except a strip 80 feet wide as conveyed to H. E. Huntington, trustee, by deed recorded in Book 155, page 334 of Deeds, Records of Orange County, California. Reserving therefrom for road, aqueduct, ditches, pipes, flumes or other conduits of water, a strip of land 20 feet wide along, adjoining and abutting the section and quarter section lines.

Said sale to be made on or after the 24th day of September, 1911. Bids in writing will be received by the undersigned at the office of Hahn & Hahn, attorneys, suite 406 Chamber of Commerce building, Pasadena, California.

Terms of sale, ten per cent cash to be paid when sale is approved, and balance when the sale is confirmed by Court.

C. J. WALKER, MARY R. DARLING, Executor and Executrix of the Will of Jennie A. Reeve.

Dated, August 18th, 1911.

Hahn & Hahn, Attorneys for Estate.

Economy in Railroad

A freeman was up for examination for promotion to the position of engineer. He passed a fair test on the rules and machinery, but during all of it the examiner was constantly lecturing him as to the need of economy in the use of fuel and oil, so that by the time he finished his examination it was pretty well on his nerves.

Having finished the technical part, the examiner thought he would put the man in a critical position to see what he might do in an emergency. So he put to him this question: "Supposing you are the engineer of a freight train on a single track, and you are in a head-on collision with a passenger train and you know that you could not stop your train, that a collision could not be averted, what would you do?"

The man, unstrung by the vigorous instruction he had received as to economy, replied in this way: "Why, I would grab the oil can in one hand and a lump of coal in the other and jump!"—Atchison Globe.

Unnecessary Advice

A Boston school teacher, on retiring after 49 years' service, had these suggestions to make to young women teachers: "A little harmless flirting with nice people with whom you are acquainted will do much to rest the tired mind after the arduous duties of the schoolroom; be a live wire every minute; do not eat too much." Advice is given to those who need it; it is easy to guess what young Boston school teachers are like.

WESLEY AND CALVIN SHOOK HANDS YESTERDAY.

The "Impossible" Accomplished by Pastor Russell.

Address to 5,000 at Mt. Lake Park, Md., Assembly Grounds.

(PASTOR RUSSELL)

Pastor Russell of Brooklyn Tabernacle, now also of London Tabernacle, is the principle speaker on the program. Hundreds of ministers and thousands of Bible students are in attendance. The program shows more than sixty public addresses. The Association is unsectarian. Christian union on the Bible basis and without sectarian fences to separate is the sentiment—the Bible truths, previously misunderstood and misinterpreted by the jarring, separating creeds, is the explanation. God's love and mercy in the blessing of the Church and the world and the glorious salvations provided is the keynote. The Convention will continue in session another week.

Pastor Russell, remarking that the beautiful grounds and Auditorium are the property of the Methodist Brethren, took for his text John Wesley's favorite slogan of Free Grace—"And the Spirit and the Bride say, Come; and let him that heareth say, Come; and let him that is athirst come; and whosoever will, let him take the water of life freely" (Revelation xxii, 17). Pastor Russell remarked that Protestantism in general was Calvinistic when Brother Wesley began his preaching, "God is Love;" "Whosoever will may come and take of the water of life, freely"—there is no predestination to eternal torture! The result of Brother Wesley's teachings is seen, not merely in the numbers professing Methodism and Free Grace; his influence has overspread all the Calvinistic denominations. Their confessions of faith still are Calvinistic, but in their hearts and on their tongues they have Brother Wesley's Message, "God is Love; He never predestinated anybody to eternal torture."

Right in Some Particulars—Wrong in Others.

Pastor Russell declares that Brothers Calvin and Wesley were both right in certain particulars and both wrong in other particulars. Brother Calvin was quite right in declaring an election according to grace, and in speaking of the Church as God's "elect," and of bringing the Church to their "calling and election sure." He was right in these matters because he was in accord with the Bible. But he was wrong in declaring that God had predestinated the non-elect to an eternity of suffering—because there is no Scripture to this effect. The only Scripture respecting Divine predestination relates to the Church—the elect. It tells us that God foreknew the Church as a specially elect class and predestinated that no one could be a member of this class except such as would become copies of His Son, the Redeemer. To this, the Scriptural predestination, none can object. It is the unscriptural deductions which have caused us difficulty.

St. Paul gives the key to the situation in 1 Timothy ii, 4-6. He declares that it is God's will that all men shall be saved (recovered from the condemnation which came upon all through Adam) and also come to an accurate knowledge of the Truth. He declares that it is for God's reason that Jesus became the Mediator between God and the world of mankind and that the testing of this great fact will reach all men "in due time."

In God's "Due Time." Now is the Church's "due time" to see and to hear, but not the world's. Satan blinds and deafens the world of mankind now so that only a favored few, comparatively, hear and see God's proffered grace in Christ. Great is the blessing of those who see and hear, for they may make their calling and election sure and become joint-heirs with their Redeemer in His Messianic Kingdom. Then will be due the blessing of the non-elect. Satan will be bound for the thousand years of Messiah's Kingdom. Darkness, ignorance and superstition shall flee. Those then refusing to bow and confess under this full and gracious opportunity will die the Second Death, from which there will be no resurrection, no restitution. They will perish as brute beasts—be utterly destroyed from amongst the people (II Peter ii, 12; Acts iii, 19-23).

Brother Wesley's favorite text proclaiming Free Grace is a precious one still, though it does not belong to the present Age, but to the coming one. The proof of this is evidenced by the context. The Church is not yet complete. She is not yet the Bride, the Lamb's Wife, but merely His espoused virgin.

New York's Debt Is Heavy New Yorkers are the biggest borrowers in the world; at least they are so collectively, for the city owes seven times as much as any other city in the country and more than one-half as much as the largest 27 other cities in the land.

RECOMMENDS SURVEY OF NEWPORT HARBOR

(Continued from page one)

suitable harbor lines, and upon which their plans could be based. It is understood that such surveys as may be necessary for these purposes can be provided for under existing laws and are not covered by the present authorization for preliminary examination. It therefore does not seem to be advisable, under the circumstances, for the General Government to undertake any improvement at this time.

"Reference is made within to existing wharf and terminal facilities, and the Board reports in accordance with law that there are no questions of water-power or other related subjects which have any bearing upon the question of this improvement.

"For the Board:
WM. T. RUSSELL,
Colonel, Corps of Engineers,
Senior Member of the Board."

The attitude of Orange County in general and Newport Beach in particular is aptly expressed in the following statement from the Newport News:

"The report lays special stress on the point that the board does not consider it advisable for the general government to undertake any improvement at this time, but this is not disappointing as no improvement by the general government was asked for. It is the history of the development of harbors that the Federal government will not make any appropriation for the starting of harbor work but that it is ready and willing to lend a helping hand for the completion of the work after local interests have made the first outlay of money. In the case of Newport Bay it was absolutely necessary to have the government establish the harbor lines and make an official survey before anything could be done by local interests in an intelligent manner toward the improvement of the bay. This will now be done, the expense of the survey and the establishment of the lines being borne by the general government as a special fund kept for that purpose.

"The proposition is now up to the city to vote bonds for the improvement of the entrance to the bay. Private interests have agreed to donate to the public in the event that \$125,000 will be expended on jetties at the mouth of the bay and other companies will make large donations to the jetty fund if the proposed bonds carry.

"The most practical plan that has yet presented itself to those who have interested themselves in the improvement of the harbor is a combined jetty and outfall sewer. The city must have a sewer system before long, there is no doubt about that, and there is no plan more practical than using the jetty on the west side of the channel leading into Newport Bay as an outfall for a municipal sewer."

—Mrs. Alva J. Padgham wishes to announce that she has resumed work with piano pupils and will be glad to make arrangements with students desiring to study. Address 208 Ninth St. Phone Sunset Red 3131; Home 179.

Personals

Mr. and Mrs. Lea Warren and son, Le Roy, returned today from a very pleasant ten days' vacation trip to Redondo Beach. They were accompanied home by Misses Jennie and Grace White from San Jose, cousins of Mr. Warren. Miss Grace White is one of Santa Ana's teachers and will remain here.

Le Roy Warren leaves today for Los Angeles to take up manual training work in the Los Angeles State Normal.

William McGreavy has returned from Oregon, where he went on a hunting trip. He killed six bucks and had a lot of fine grouse hunting.

Dr. R. A. Cushman, wife and baby, and the two grandparents, Dr. Cushman's mother and Mrs. Cushman's mother, Mrs. Rankin, have moved to Santa Ana and are located at 114 East Twelfth street.

Mr. and Mrs. H. W. Walker leave today on a month's outing. They will be in the mountains of Siskiyou County where Mr. Walker anticipates some good hunting.

Miss Mattie McCrary of Waco, Texas, who has been visiting at the home of E. A. Clardy for the past week, left today for a trip to Catalina and other points before returning home.

Grady Clardy who has been working in the Southern California sugar factory during vacation, left today for the University of California where he will begin his senior year with the opening of this term.

Mr. A. C. Wasner is enjoying a few days' vacation at the beaches, principally at Venice.

Mr. and Mrs. Sam Shallenberger have moved to Santa Ana from Los Angeles and are living at 420 East Sixth street with Mrs. Shallenberger's parents. Mr. Shallenberger is employed at Anaheim and goes back and forth daily.

Mr. and Mrs. Harry Dezn and daughter, Dorothy, leave Wednesday for a ten days' outing on Mt. Wilson.

Orange County Conservatory of Music

We haven't found that small fire-proof safe yet which we wish to buy. That ten-foot table and seat are not yet sold either. Someone will get a bargain on these if taken before we move.

Watch for the announcement of our removal.

Our new quarters are large and beautiful, which will make the pupils work as well as ours many times as pleasant as in the past when we have hardly had room enough.

Garden Grove Y's Meet

The progressive social that was given by the Garden Grove Y. P. B.'s proved a great success. About forty or fifty young people gathered together at Miss Bernice Wade's. After spending an hour in the devotional and business part of the meeting all got on the hay wagons for a moonlight ride to Miss Lizzie Brown's where the musical and literary part of the program was conducted.

After the program was over all made for the watermelon patch and ate to their hearts' content, after which they again got on the wagons and proceeded to Mr. Ray Beardsley's for the debate, which proved very exciting, and refreshments of chocolate and cake were served. All started home at 12:30 a. m., wishing such socials were more frequent.

The Cause of Constipation

Constipation is, in some cases, the direct result from a torpid or slow acting liver, brought about by the withholding of the flow of bile. The condition is commonly allied with more or less indigestion and dyspepsia, partly due to the constipation itself.

Many persons have found it comparatively easy to overcome such conditions with a treatment of Rexall Liver Salts.

In our judgment, we feel that this preparation is remarkably well fitted to overcome these conditions, and recommend them to you with the understanding that any money you may have spent with us for the preparation will be refunded in case there are no beneficial results.

In two sizes, 25c and 50c. Dean's Drug Store, The Rexall Drug Store.

FOUND DEAD IN HER BED THIS MORNING

Mrs. Sarah R. Stanton was found dead in her bed at her home on Sullivan street this morning. Death was due probably to heart failure. Mrs. Stanton lived alone. Last night at 8 o'clock she was talking cheerfully over the telephone to her daughter, Mrs. G. A. Maganey, and hung up after telling her daughter that it was her usual time for going to bed and she was going to go immediately.

This morning Mr. Maganey went to the place, and not seeing Mrs. Stanton about, he went into the house, and found her dead in her bed.

Mrs. Stanton lived in California for twenty-five years. She was 72 years old and leaves three children, Mrs. Maganey of Santa Ana, Mrs. E. T. Bowen of San Diego and C. E. Stanton of Los Angeles. The funeral will be held on Sept. 14.

MAY FLY OVER THE CITY THIS EVENING

Fred De Kor, Glenn Martin's flying pupil, expects to journey through the air over Santa Ana. He may take the trip this evening along about 5:30 to 6:30 o'clock, or he may decide to postpone it until some other day. De Kor has been in the air for nineteen minutes, and he is confident he can make a safe trip over the city. De Kor is from Seattle.

CITRUS CROP OF 1911 TOTALS 46,000 CAR LOADS AND IS BY FAR THE BIGGEST ON RECORD

Value, as Compiled by Southern California Exchanges, Is \$50,000,000, or \$22,000,000 More Than Last Season—New Groves Principal Source of Increase—Demand Grows Rapidly Both in U. S. and Abroad

Citrus fruit shipments from Southern California during the year ending August 31, have broken all records, according to figures which were made public yesterday by G. Harold Powell, manager of the Citrus Protective League. A total of 46,000 carloads was shipped, with a value of \$50,000,000, which is an increase of \$20,000,000 over the corresponding shipments of the previous year.

This total of 46,000 cars of oranges and lemons during the last year is over eight times as large as the crop shipped in 1893-94, when the output was only 5600 carloads.

With the increase in the output, the citrus really values have increased \$75,000,000 during the last five years. Three thousand more citrus growers have come into the state, and the citrus acreage has been more than doubled.

As a result of this volume of output of citrus fruit, really in Southern California suitable for the growing of oranges and lemons is increasing steadily in value, and within the next year or two, it is predicted, every piece of land available for this industry will be planted in orange and

lemon groves. In the Middle West and Eastern States the California orange has become as common in the household as the apple, and in the hot summer months it is the only fresh fruit in the Northwest, the Central West and many markets of the South.

New Groves Cause Increase
The increase this year is due principally to the large number of new groves beginning to bear fruit and to the more up-to-date facilities for handling the fruit.

Foreign Demand Grows
There is a steady demand in the demand for oranges and lemons in European countries, especially for fruit of the higher grades. The exports of lemons to European countries have increased proportionately faster than to the United States during the last ten years. The exports of lemons from Italy have increased about 80 per cent in the last ten years. The exports to the United States increased about 75 per cent during the same period of time. The exports to Denmark increased approximately 382 per cent, to Germany 250 per cent, to Switzerland 225 per cent, to Belgium 230 per cent, and to Norway and Sweden 210 per cent each during the same period of time.

In order to establish a by-product business in California, methods will have to be worked out by which we can accomplish economically by machinery the results now attained in Italy by hand. The league is interested, therefore, in having established in California an experimental laboratory by the Department of Agriculture through which the Government and the industry can co-operate in an investigation of these complex questions. It is probable that such a laboratory may be established here this fall.

ARE YOU FREE —FROM—

Headaches, Colds, Indigestion, Pains, Constipation, Sour Stomach, Dizziness? If you are not, the most effective, prompt and pleasant method of getting rid of them is to take, now and then, a desertsopoulful of the ever refreshing and truly beneficial laxative remedy—Syrup of Figs and Elixir of Senna. It is well known throughout the world as the best of family laxative remedies, because it acts so gently and strengthens naturally without irritating the system in any way.

To get its beneficial effects it is always necessary to buy the genuine, manufactured by the California Fig Syrup Co., bearing the name of the Company, plainly printed on the front of every package.

BAD STOMACHS PUT IN ORDER

No Indigestion, Gas, Heartburn or Dyspepsia Five Minutes Later

If what you eat is souring on your stomach or lies like a lump of lead refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Diapepsin is a trouble of all kinds must go, and why Diapepsin always relieves sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat, besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or Gastritis or any other stomach misery.

Get some Pape's Diapepsin now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

NEW MEMBERS OF THE FACULTY OF STATE UNIVERSITY

BERKELEY, Sept. 12.—The opening autumn term witnesses the addition to the faculty of several new instructors and professors. Professor Herbert T. Bolton, one of the leading American scholars in the history of the West, joins the department of history. He was a student under Professor Frederick Turner at Wisconsin, later a member of the history department of the University of Texas, and recently a teacher at Stanford. He has published extensively and is an authority of eminence on the history of California and the Southwest. In connection with his teaching he will be engaged extensively in research in the rich materials of the Bancroft Library. He gives among other courses this year one on the History of the West and another on Spain in the Southwest. The graduate course in Western history will deal with "The Frontier Relations of the United States With Spain and Mexico From 1803 to 1845." Mr. F. J. Teggart, for some time curator of the Bancroft Library, becomes this year associate professor of Pacific Coast history.

With these two leading scholars and with the advantage of the Bancroft Library now excellently housed in the new Doe building, California is admirably equipped for the working out of the history of this state and its neighbors. With the series of publications now coming out under the auspices of the Academy of Pacific Coast History the romance of California as Professor Morse Stephens calls it, will become known to the people of the state.

The Native Sons of the Golden West have shown their zeal in this work by the founding of two fellowships in Pacific Coast history. The first appointee, Mr. Lawrence Palmer Briggs, is now in Spain engaged in research on documents that throw light on the beginnings of America in Spanish colonies.

Dr. L. J. Paetow comes from the University of Illinois to be assistant professor of English history. He was formerly a fellow of the University of Pennsylvania, where he took his Ph. D. degree with a thesis on "Medieval University Studies." He has been lecturing in the last summer school on the history of England and the constitutional history of England.

Dr. Frederick Winsen becomes associate professor of French. He has the degree of Ph. D. from the University of Jena, and comes here for his first experience in America from the University of Berlin. He is one of the first teachers of modern languages in the world.

Dr. John Graham Brooks, the eminent author and lecturer of Massachusetts, is in Berkeley as lecturer in economics for the first half year. He is a graduate of Harvard University, studied extensively abroad, particularly in Germany, and was several years a lecturer in the extension department of the University of Chicago. He was also for a considerable period in the United States Department of Labor at Washington, and made the report of 1893 on the Working Men's Insurance in Germany. He is the author of several well known books and the students of the University are gladly availing themselves of the opportunity this half year to hear his excellent lectures.

The Road to Prosperity

Is Clearly Pointed Out

and well defined by those Economic Institutions—such as the Santa Ana Savings Bank—conceived and conducted to encourage among men and women, the practice of commendable thrift through the systematic saving of the product of their effort.

That all may receive these benefits, we are opening savings accounts as low as one dollar and pay 4 per cent compound interest.

DO YOU

Keep a bank account? If not, why not start one with us at once? Your check book will quickly settle all disputes as to bills you have paid. The check stub shows the record, and the cancelled check, which we return to you, constitutes a positive and undisputed receipt. Your pass book shows you the amount of money you have handled from time to time, and will be a good sign of your advancement and prosperity.

To NEWCOMERS and those WHO do their BANKING out of town:

Do your banking with us and establish your CREDIT by having your checks circulate in your own locality. The above Banks offer to the banking public the advantage of their modern facilities developed and perfected by successful service to depositors.

OUR SAFE DEPOSIT DEPARTMENT

affords absolute protection for paper and valuables. Every year more people are becoming convinced of the need of safe deposit vaults. Every day the fact is becoming better known that the peace of mind gained by the use of a box in a burglar and fire proof vault is worth many times the price of the box rent.

LOS ANGELES PRODUCE MARKET

Business was in good volume. Receipts were liberal generally and a tone of firmness was noted throughout the day. The receipts of fine creamy butter were light and under a heavy demand prices advanced 1 cent. Green fruits were in liberal receipt, and there was a fairly active demand for desirable stock.

The market was glutted with grapes, and there was a wide range of prices. Tokay and Hamburgs were in best call, and prices on these varieties were well sustained.

Apples are coming in much stronger, with resultant declines in prices. The market is weak, due not only to heavy receipts, but the greenness of the stock, which dealers assert should have been left on the trees until about the 20th.

The peach crop is about cleaned up, with the exception of a few Salinas, now finding their way to market. They were quoted at 80 cents a 20-pound box. Cantaloupes were scarce. The few that are finding their way in are commanding a fair price. Large crates were quoted at \$1.25.

Quinces were in light receipt and ranked in price from \$1.00 to \$1.25 a lug box.

White and black figs were in fair receipt, and both quoted at \$1.25 a box.

A few desert pears are on the market. They did not command much attention; they were quoted at \$1 a lug box.

Highland potatoes are the only stock quoted. Receipts are about normal and there is little surplus stock on hand. A generally increased demand throughout the country has resulted in a slight advance in local potato quotations over those of a week ago. Highlands are quoted at \$1.75 to \$1.85. Receipts were 5302 sacks.

Sweet potatoes are arriving in such quantities as to be quoted by the hundred weight, rather than by the pound. Prices are a shade lower than those of last week.

Receipts of strictly fresh eggs were light, but prices on all grades were unchanged. The market was firm. Receipts were 177 cases.

Butter receipts were 53,098 pounds. The market was unchanged on all grades with the exception of creamery extras, the revised figure on this grade being 26 1/2 cents a pound.

Cheese receipts were 4399 pounds. Fine full cream stock sold fairly, and was kept well cleaned up at full figures.

Onions were in moderate supply and steady with trade fair. Receipts from outside were 2 sacks.

Green beans have been scarce for the past few days and prices were higher. Receipts were 23 sacks.

There was a noticeable change in the citrus fruit situation, prices of which advanced 25 cents on Valencia oranges. The revised figures were \$3.50 to \$4. Seedless grapefruit and seedlings were also advanced 25 cents a box.

The hay market has firmed up and prices have advanced.

Sugar advanced 25 cents a hundred weight.

West Orange, Cal., Sept. 8, 1911.

This is to certify that I have taken up the following described estray horse: Color bay, aged 12 years, weight 1100 pounds, height about 16 hands, the fore-top is cut off, scars on hind feet. Said estray was taken up on the 17th of August, and is confined at my place at the north end of Bristol street, just north of the Santiago Creek.

C. S. MINTER.

San Juan Hot Springs

Columbia Hornless Grafonola "Favorite" \$50.00

An elegant piece of furniture and a talking instrument of the highest quality of tone. Guaranteed to reproduce the human voice or the tones of any musical instrument more perfectly than any horn machine of any make.

Comes in three style of finishes: Golden Oak, Fumed Oak, or Mahogany. This has the best of noiseless motors. Does away with the scratching sounds and is absolutely dust proof.

WHY PAY \$40.00 TO \$60.00 FOR THE OLD STYLE, UNSIGHTLY HORN MACHINE WHEN YOU CAN GET A BEAUTIFUL HIGH GRADE CABINET GRAFONOLA FOR \$50.00?

SHAFFER'S MUSIC HOUSE

Dealers in Columbia Graphophones and Grafonolas, High Grade Pianos and other Musical Goods.

119 West Fourth St., Santa Ana.

HE ADVOCATES UNIFORM LAW

President Taft Will Speak in Favor of Better Marriage and Divorce Condition

BEVERLY, Mass., Sept. 12.—On his swing around the circle, which he starts Friday, President Taft will speak in various parts of the country in favor of uniform marriage and divorce laws. The announcement is causing much comment here as it follows closely on the heels of the Astor-Force marriage in Rhode Island. Astor was prohibited from remarrying in New York by a decree of divorce granted his former wife.

The president considers uniform laws of marriage and divorce as vitally important and he has some strong feelings on the subject. He believes the sanctity of the American home is at stake; that a broad moral question is involved, and that the subject is one that will appeal directly to the great majority of Americans.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WASHED FROM ROCK BY WAVE

A. R. Smith of Orange Had a Narrow Escape at Arch Beach Sunday

Orange News: His life endangered by one wave and saved by a second was the unnerving experience of A. R. Smith, who was swept from a rock at Arch Beach yesterday and tossed back upon it by a succeeding billow.

Mr. and Mrs. Smith and son Harry, with their guests, Mr. and Mrs. E. W. Jewell, drove to Laguna and Arch Beach yesterday. Mr. Smith and Mr. Jewell went out upon the rocks below the Woods cottage at Arch Beach and sat down, believing themselves beyond the reach of the waves.

A cavity in the rocks, becoming a deep water hole with each inrush of waves, was upon one side. A big wave suddenly swept the rock and knocked Smith into the water-hole. There his position was most precarious, as the churning, swirling waters would soon grind a man to death. Fortunately a second wave tossed him back so that he was able to crawl upon the rock. A bruised hip and lacerated hands where he came in contact with the rocks were the extent of his injuries.

Eleven Teachers

The trustees of the Orange Union High School Saturday evening decided to add a teacher to the teaching staff, and authorized the employment

of Miss Lenore Rose.

The work in both the English and mathematics departments has become too much for the present instructors because of the increased enrollment. It has been decided to place Mr. Stoner in the English department instead of dividing his time between English and mathematics, and to place Miss Rose in mathematics. The addition of Miss Rose, who began this afternoon, gives the high school eleven teachers.

The board ordered a cement walk built from the south door of the school to the walk on the south side of the grounds.

Wants a Hand

Chas. Baker, who was mangled by a freight train in the Santa Fe yards here on the 9th of last November, losing two arms and a leg, put in an appearance today and in the space of two hours, by his own account, collected \$25.

After Baker was hurt he was taken to the hospital and for a long time hovered upon the verge of death. Then he improved and became a charge upon the county.

The man was given a ticket to Denver by the railroad company and a suit of clothes by the supervisors and left some months ago. He is now he says, collecting money to buy a home, so that he may enter the cigar business.

At the time he was injured, a watch in which the name of Chas. Hess was engraved. The owner of the watch was later found, and said that the watch had been stolen from him, but no investigation of Baker was made, owing to his dependent condition.

Here Tomorrow

Miss Alberta Clair, the Colorado girl who is to run from Los Angeles to New York, starts tomorrow, and will arrive in Santa Ana about 11 o'clock.

Dr. H. M. Robertson, Physician and Surgeon, Office Cor. Third and Main, opposite City Hall. Both Phones.
